

ROOT BOOST

Root Boost is an infused fish product.

It's a great 2-in-1 system containing the endo/ecto mycorrhizae your plants need with the liquid fish (food) the mycorrhizae need.

A win, win situation!

Benefits:

- Biologically Alive
- Fish Hydrolysate
- Great for Transplants/Seedlings
- Contains Endo/Ecto Mycorrhizae
- Contains 1% plant-available calcium
- Larger Root Mass Development
- Promotes Nutrient/Water absorption
